Bifido Builder

Bifido Builder is a unique *Bifidobacterium*-specific supplement unmatched for its combination of 42 billion CFU, featuring 5 specific Bifido strains. The carefully selected colony-forming strains are recognized among the earliest to populate the infant gut, and they are extensively researched for beneficial immune function and gastrointestinal health.

Bifido Builder's claim to fame strain is *Bifidobacterium longum* ssp. *infantis*, which helps repopulate the colon with the once-dominant strain. Additional *Bifidobacterium* pioneer strains complete the Bifido Builder formula, which delivers several benefits including better immune performance, selective nutrient absorption, and increased vitamin synthesis. Bifido Builder also provides a great option for people with health conditions requiring a *Lactobacillus*-free probiotic.

Stress, poor diet, frequent antibiotic use, inadvertent ingestion of food laden with environmental toxins, and aging are among the reasons for the decline of these once-dominant strains.

Although highly beneficial, these strains are also extremely susceptible to gastric acid, which can destroy the fragile probiotics. GPS™ enteric coating, made with marine- and plant-sourced ingredients, solves this challenge, as it withstands stomach acid and safely delivers probiotics in the intestines.

Because the *Bifidobacteria* genus is sensitive to temperature, this product must be kept refrigerated.

Non-GMO, soy-free, and dairy-free, Bifido Builder could be just what your microbiota requires for better health and a renaissance for immune performance.

Make Life Better · newrootsherbal.com

Each GPS™ natural water-based enteric-coated vegetable capsule protects contents from stomach acids and delivers 100% potency of the following 5 strains of live, active, healthy, and whole cells (42 billion) to the intestines:

Human Strains:

<i>Bifidobacterium longum</i> ssp. <i>infantis</i> UB9214	21 billion CFU
<i>Bifidobacterium breve</i> UB8674	6.3 billion CFU
<i>Bifidobacterium bifidum</i> UB4280	6.3 billion CFU
<i>Bifidobacterium longum</i> ssp. <i>longum</i> UB7691	6.3 billion CFU

Dairy Strains:

<i>Bifidobacterium animalis</i> ssp. <i>lactis</i> HN019	2.1 billion CFU
Vitamin C (ascorbic acid)	6 mg

CFU = Colony-Forming Units.

Potency guaranteed at date of expiry.

Other ingredients:

Non-GMO potato starch, trehalose, vegetable magnesium stearate, non-GMO potato maltodextrin, and sodium ascorbate in a non-GMO GPS™ capsule (medium-chain triglycerides, sodium alginate, oleic acid, stearic acid, ethylcellulose, hypromellose, and purified water).
