Reuteri Restore

Up to 80% of immune function originates from the intricate relationship between the gut microbiome and the body's innate immune system. Passed on during birth and via breast-feeding, *Lactobacillus reuteri* is a driving force in foundational gut function and immune development. Maintaining strong numbers of *L. reuteri* is key as research has demonstrated a decrease in *L. reuteri* within the gut microbiome may be linked with higher occurrences of gastrointestinal illness. A reduction of *L. reuteri* can also lead to an increased incidence of inflammatory illness.

Unfortunately, factors such as poor diet, environmental toxins, alcohol consumption, stress, and the prevalence of antibiotics diminish numbers of delicate, immune-enhancing probiotics.

Reuteri Restore delivers a potency-validated 2.5 billion live, active cells per enteric-coated capsule. Delivery is critical for probiotic effectiveness; GPS™ enteric coating is made from naturally sourced ingredients and protects the regular vegetable capsule, carrying the probiotics, from exposure to detrimental stomach acid. GPS™ enteric-coated capsules open selectively within the favourable pH environment of the intestines. This allows *L. reuteri* to colonize, multiply, and benefit where you need it: in the intestines.

Make Life Better · newrootsherbal.com

Each GPS™ natural water-based enteric-coated vegetable capsule protects contents from stomach acids and delivers 100% potency of the following strain of live, active, healthy, and whole cells (2.5 billion) to the intestines:

Dairy Strain:

Lactobacillus reuteri UB2419 2.5 billion CFU
Vitamin C (ascorbic acid) 6 mg

CFU = Colony-Forming Unit.

Potency guaranteed at date of expiry.

Other ingredients:

Arabinogalactan, inulin, non-GMO potato starch, trehalose, vegetable magnesium stearate, non-GMO potato maltodextrin, and sodium ascorbate in a non-GMO GPS™ capsule (medium-chain triglycerides, sodium alginate, oleic acid, stearic acid, ethylcellulose, hypromellose, and purified water).

#3036 · 30 capsules · V0754-R1 · NPN 80113790

Directions of use:

Adults: Take 1 capsule daily or as directed by your health-care practitioner. If you are taking antibiotics, take this product at least 2–3 hours before or after them.

Manufactured under strict GMP (Good Manufacturing Practices).
